DETAILED ACTION

This communication is responsive to amendment filed on September 23, 2004.

Applicant amends the specification, claims 1-10.

Allowable Subject Matter

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

1. Claims 1-10 are allowed.
2. The following is an Examiner's Statement of Reasons for Allowance: Claims 1-10 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches an image processor or method comprising means for or steps of determining maximum values of saturation for the values of the lightness before and after the correction of a value of lightness to change contrast of the image; correcting a value of saturation in accordance with the maximum values of saturation.

Iwamoto et al (US Patent No. 6,664,973) fails to teach means for or step of correcting a value of saturation in accordance with the maximum values of saturation for the values of the lightness before and after the lightness correction.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue
